1 Introduction

As described in Annex I to the Grant Agreement, the COADAPT Website is among the project's communication activities to implement the dissemination plan and to pave the way for future exploitation of the project outcomes. The communication activities through the Website will begin from the start of the project and include the set up and administration of the technical infrastructure, the creation of appropriate communication material, the engagement in outreach initiatives toward the industry, the scientific community and standards organizations.

The Website will be the main communication channel that will have a direct link with the social media accounts (e.g. Twitter, Facebook, LinkedIn), the project's newsletter campaigns and the website's blog.

The COADAPT project website is accessible at: www.coadapt-project.eu

2 Objectives

This report accompanies deliverable D7.1 (nature: Website) and gives a brief overview of the project website of the COADAPT project. The website deliverable of has two parts:

- Public area – Project Website
- Private area – File repository

The Website presents the project and its scope and achievements whereas the file repository is accessible from the COADAPT consortium members and the EC/Project Officer and includes all key documents, e.g. deliverables, periodic reports, copies of signed contracts, publications, etc

The Website will be managed by iSPRINT and the File repository by the coordinator, the "University of Helsinki".

3 Project Website

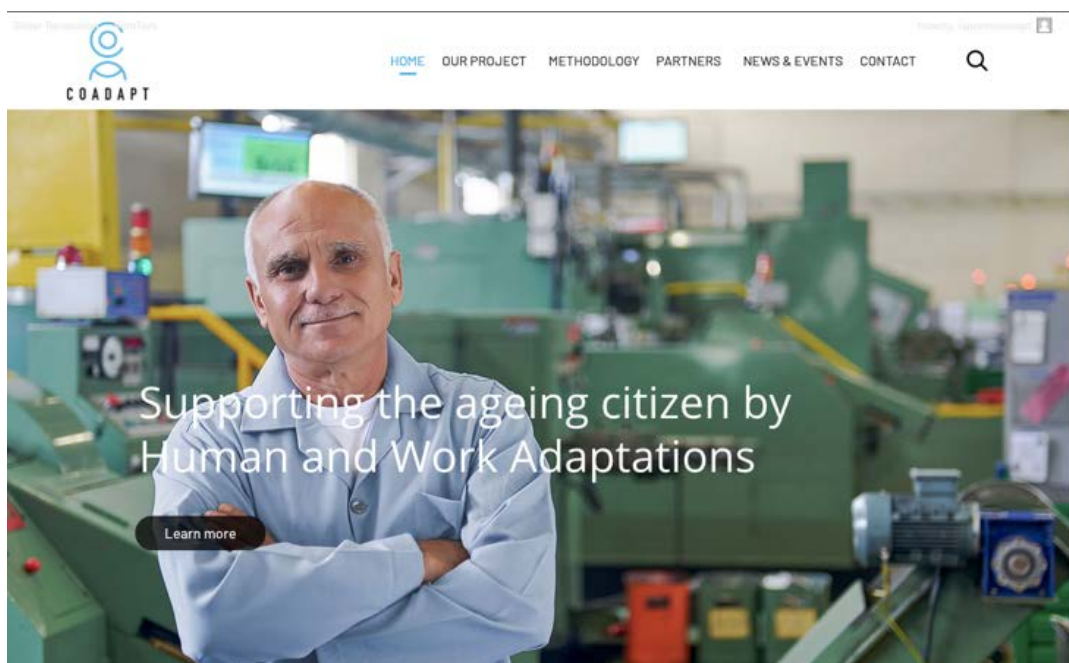

COADAPT Website is accessible at www.coadapt-project.eu and is the main tool for the dissemination and communication of information related to the project. It follows the branding guidelines, with a clean and simple design and the use of visuals to better articulate our objectives. There is an integrated blog, where we will post updates of the project's activities and create content for our audience.

The current structure of the website includes following sections:

- **HOME:** Intro page that presents using a banner and different sections, the main concept and message of the project

- **OUR PROJECT:** This page focuses on COADAPT Mission, Objectives and Results and includes also a summarized background of the project
 - o AMBITION
 - o MISSION
 - o OBJECTIVES
- **METHODOLOGY:** This section will provide the
- **PARTNERS:** This part of the website provides an overview of partners
- **NEWS & EVENTS:** This part will announce all the project news and events based on the workplan
- **CONTACT:** This includes the form and project coordinator's contact details for the visitors to communicate with

See in the following figures the landing page, partner and contact pages has the following layout:

As the ageing citizen face particular difficulties in remaining active, COADAPT CO-ADAPT proposes a framework that provides principles for a two-way adaptation in support of ageing citizens.

Human Adaptation Support

Empowers ageing citizen to adapt to changed conditions through a personalized Artificial Intelligence (AI) conversational agent for change support

[Read more](#)

Work Systems Adaptation Support

Defines three types of smart adaptations in work systems with different level of technology sophistication
